

Apimondia Newsletter | July 2025

Are you ready for the 49th APIMONDIA International Apicultural Congress?

The Scandinavian Beekeepers are proud to welcome you to an exceptional beekeeping experience from 23 – 27 September 2025 in Copenhagen.

The final countdown has begun. Apimondia and the Local Organizing Committee have prepared a cornucopia of a programme. The Professional Congress Organizer and the Bella Center does a great job to prepare and manage a world class event.

You will be able to taste honey from all over the world at the Global Honey Bar. The World Beekeeping Awards will celebrate the excellence in all aspects of beekeeping and the Global Honey Talks will have full focus on honey.

Join one or more of the exciting technical excursions at the APIMONDIA 2025, great interest has made us organize more. At a meeting last week with the tour host and guides, it was mentioned that the only thing not prepared for your visit was the coffee.

We're pleased to introduce a new Youth Programme Session which will take place on Saturday 27 September from 13:00 to 15:00. This new addition to the programme will feature young beekeepers from around the world sharing their work, ideas, and experiences. From sustainable practices to innovative start-ups, these emerging leaders are finding creative ways to build careers in beekeeping, often in the face of economic uncertainty and rising costs. It is an opportunity to hear directly from them, learn what's driving their work, and connect across generations.

Poster presentations provide an opportunity to highlight excellent research that due to space constraints could not be included in the oral sessions.

The 49th APIMONDIA Congress will place great emphasis on social activities and networking. You can look forward to friendly receptions, restaurants and bars offering special beekeeping themed menus, plenty of space to enjoy coffee with colleagues from around the world, and much more.

Buzz of transformation

An inspiring global documentary series celebrating how ordinary people achieve the extraordinary through their connection with the bees.

At the congress you can watch a presentation of the first documentary – *Interconnected One Health, One Planet*, followed by a Q&A and open table discussion.
